

## U-Filter version compatibility guide

Thank you for purchasing Ultinous U-Filter for Milestone, a state of the art AI powered video analytics solution!

Ultinous U-Filter for Milestone can filter events using the power of deep learning. The solution consists of the following two components:

- Milestone XProtect plugin - runs on Windows
- U-Filter backend server - runs on Ubuntu

The following table describes the version compatibility of the two components:

<a href="#">Ultinous U-Filter for Milestone XProtect plugin</a>	<a href="#">U-Filter backend server</a>
<a href="#">1.0.1</a>	2.0

**NOTE:** Using versions other than the ones described above is not supported.
